Issue 1.01

Efficient print speeds, high capacity and enhanced quality.

The Magicard NEO range of ID card printers has been developed specifically for Asia, South America, Africa and The Middle East.

The 360NEO can print an anti-fraud watermark on every card to ensure security to staff, businesses and data.

This is a powerful way to create secure ID cards in high volumes. Each full colour, single-sided card with HoloKote®, can be printed in under 19 seconds giving the 360NEO the ability to print up to 190 cards per hour.
